Question 1

Who needs to first approve a capstone proposal of a student collecting data from WGU students, alumni, employers of graduates, faculty, or staff? *

- ☐ Capstone Course Mentors in the relevant College
- ☒ Office of Institutional Research
- ☐ Student Services
- ☐ Institutional Review Board (IRB)

Question 2

Which one of these capstone projects may need IRB approval for use of human subjects? *

- ☐ Statistics about the prevalence of a problem gathered from quality assurance records.
- ☐ A comprehensive review of Internet sites and academic literature to expose trends and issues.
- ☐ An analysis of public data where identities of subjects is unknown.
- ☒ A survey and interviews of employees about the effectiveness of a new technology

Question 3

Which one of these capstone projects may need IRB approval because it involves research? *

- ☐ Nurses complete an anonymous survey to assist in a clinic's quality improvement initiative.
- ☐ The number and type of service calls are measured to compare the usability of two competing IT products for a business.
- ☒ Findings from the project are to be presented at a national convention and submitted to a referred journal
- ☐ Instructional effectiveness is measured through pre- and post-test scores in a regular school or adult education program.

Question 4

Which one these capstone projects may need IRB approval because a vulnerable population or situation is involved? *

- ☐ If the boss finds out which employees gave their opinions they could be fired or demoted if the results reveal organizational deficiencies.
- ☐ Participants are to be paid a large incentive if the results of an organizational opinion survey are positive.
- ☐ Research involving prisoners, homeless, elderly, decisionally-impaired, pregnant women, hospitalized patients, or undocumented individuals as research subjects.
- ☐ The owner's son wants to interview top leadership about what makes their employees effective in this family-owned business.
- ☒ All of the above

Question 5

Which one these capstone projects may need IRB approval because data are gathered in atypical ways, subjects, or settings? *

- ☐ Data gathered through use of voice, video, or image recordings of human subjects.
- ☐ Data gathered about such topics as sexuality, mental health, interpersonal violence, or illegal activities
- ☐ Data are collected through deception about the real project purpose.
- ☐ Use of surveys, interviews, or participant observations in a school setting.
- ☐ Action research of training effectiveness in business, industry, health care, military, or a community organization.
- ☒ All of the above

Question 6

How long is the IRB review process if the project does not qualify for "exempt" status? *

- ☒ Three business days for an expedited review by an IRB member, and five to ten days for a review by the full IRB.
- ☐ Three weeks for an expedited review by an IRB member, and two to three months for a review by the full IRB.

- ☐ None of the above; the timing depends on dates of the IRB quarterly meetings.
- ☐ 48 hours for an expedited review by an IRB member, and 72 hours for a review by the full IRB.

Congratulations! Once you click "SUBMIT" below, you will have completed the FAQ/Flowchart Quiz!

YOU WILL BE EMAILED A COPY OF YOUR RESPONSES, VERIFYING COMPLETION OF THIS QUIZ. You must click the "SUBMIT" button to have your responses recorded and emailed to you.

- ***** NOTE (STUDENTS): Your FAQ Quiz results (copy of your responses) will need to be submitted through your course. Here are instructions: <https://irb.wgu.edu/info/PublishingImages/Pages/Human-Subjects-FAQ-Quiz/Completing%20HS%20FAQ%20Quiz%20for%20submission.pdf> *****
